

BALLAST TRACK REMOVER

The essential tool for your track maintenance operations!

The Arden Equipment ballast cleaner is a hydraulic tool developed to meet the specific requirements of railway ballast cleaning operations. Designed to fit rail/road excavators from 16 to 22 tonnes, it is indispensable for removing clogged ballast.

Advantages

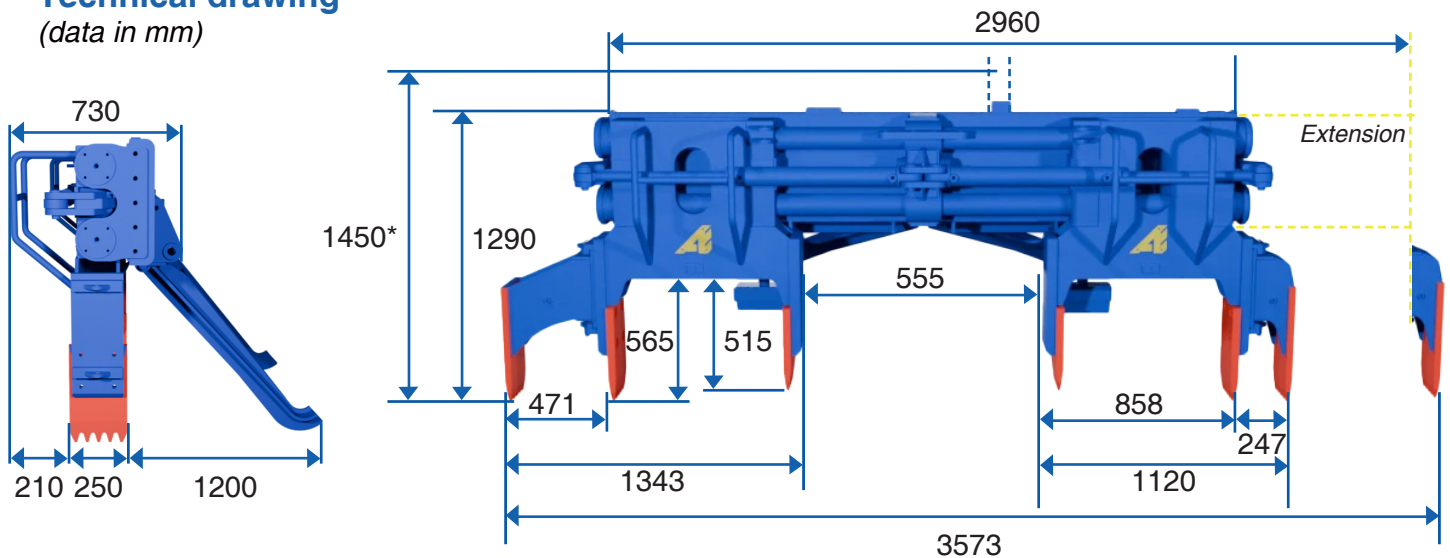

- ✓ Its significant weight enables deep ballast cleaning very quickly.
- ✓ Adjustable stops allow precise working depth adjustment, helping to preserve the track bed.
- ✓ The sliding elements are mounted on high-quality synthetic bushes that eliminate the need for lubrication and ensure effective shock absorption.
- ✓ The two contact points with the track are electrically insulated by plastic bushes.
- ✓ The end bearings are easily removable.
