Laurent DARDENNE
Managing Director
ARDEN EQUIPMENT

Dear customers and partners,

At Arden Equipment, we develop our solutions with a clear guiding principle: to design reliable, high-performance equipment tailored to the practical demands of the field, whilst preparing our product ranges for the future. Our approach is based on experience, listening to our users, and a constant commitment to improving our products and services.

Among our major developments, we are preparing a new generation of mini-excavator buckets for 2026. Their design will allow them to accommodate the main quick-coupler kits without any modifications to the bucket body, with the aim of improving our lead times and responding more quickly to your requests. In line with this approach, we are continuing to develop S-type couplers to ensure broad compatibility with existing fleets of machinery. Our dual-purpose interchangeable solution, based on the AIO automatic connection system, also illustrates this move towards greater versatility, allowing you to switch quickly from a demolition or recycling tool to handling equipment using a single machine.

We are also working to optimise our production costs, without compromising on our core requirement: to maintain the high standards of quality and durability that characterise Arden Equipment. This approach applies in particular to our ranges of sorting and demolition grapples. By developing and streamlining our product ranges, we are able to offer more competitive solutions, whilst retaining tried-and-tested mechanical components that guarantee reliability in the field.

The launch of our new website marks another significant milestone. More than just a showcase, it serves as a genuine decision-making tool: featuring equipment and spare parts configurators, simplified access to technical and sales documentation, as well as an online purchasing platform exclusively for our distributor network, enabling them to order spare parts and certain equipment directly.

As Managing Director, and drawing on my previous experience as Industrial Director, I remain firmly committed to developing sustainable solutions, supporting you in your projects and building together the innovations of tomorrow.

Laurent DARDENNE
Managing Director

NEW WEBSITE

DISCOVER OUR NEW E-COMMERCE WEBSITE:
BUILT-IN CONFIGURATOR, ORDERS AND REAL-TIME QUOTES!

Find the right attachments for your excavator using our configurator:

Select the **weight**, **brand** and **model** of your machine, then filter by tool type. Compatible equipment is displayed instantly, ready to be ordered or added to your quote.

Spare parts: quick and easy to order online

Find and order your parts in just a few clicks on our website:

- **Using the configurator:** enter the **serial number** or model name of your equipment.
- **By category:** go straight to the part via the 'Spare Parts' tab.
- **From the product page:** go to the 'Spare Parts' tab.

Access all our documentation

- Product pages
- User guides
- Spare parts diagrams
