

CONCRETE PULVERISERS

BBH014 BBH020 BBH031 BBH1000 BBH1300

FEATURES :

The concrete pulverisers **BBH** are adaptable for work with excavators from 15 to 80 tons.

With their **wide jaw opening**, the Arden Equipment **BBH** line provides higher productivity than universal tools, or specific tools fitted with jaws for concrete.

By making it possible to recycle scrap directly on site, they guarantee significant **time saving** for your missions of recycling.

The pulveriser configuration can be customised using **2 types of jaw** that can be fitted on BBHs, to be selected depending on the required type of crushing or the waste configuration:

They are equipped with **a round cut at the back of the throat**.

Available with BOOSTER : pressure multiplicator (700 bar)

- ▶ **Cycle time reduction**
- ▶ **Identical cutting force with less pressure and oil flow**
- ▶ **Opened** to limit dust,
- ▶ **Closed** to perfectly clean the scrap of any concrete residue - ideal to process pre-stressed concrete.

SECURITY

VERSATILITY

TIME SAVING

ROBUST CONSTRUCTION

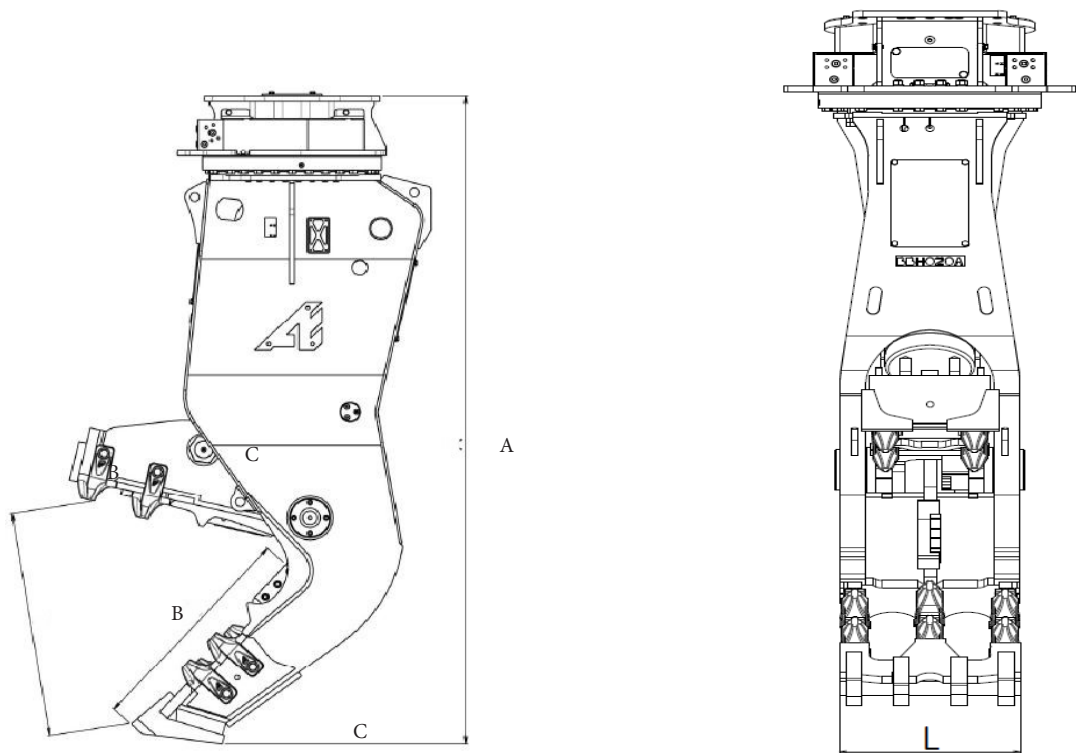

ADVANTAGES :

- Available for excavators from 13 to 80 tons
- Available with or without rotation
- These tools are exclusively for use in recycling and secondary demolition.
- Arden Equipment hydraulic concrete pulverisers are the ideal tools for work on the ground and for demolition waste recycling, concrete crushing or

OPTIONS :

Arden Jet
Speed Valve
Booster on BBH014
Closure plate to refine the grain size.
